■ **Rugged Intelligence**

Powered by ALEOS™ technology, the PinPoint X is a powerful, robust in-vehicle communications platform with a high-speed processor enabling mobile broadband data access. A 16-channel GPS receiver and embedded location protocols allow for accurate vehicle tracking, and expanded I/O functionality unleashes extensive remote instrumentation possibilities. In a sleek form-factor with a rugged aluminum case, the PinPoint X is Mil-Spec certified for reliable use in extreme environments.

■ **Next Generation HSDPA Wireless Data**

Featuring an advanced processing power and expanded memory, the PinPoint X is optimized for high-speed cellular networks. Leveraging high-speed HSDPA technology, the Sierra Wireless AirLink PinPoint X provides wide area wireless data access at speeds up to 1.8 Mbps downlink and 384 Kbps uplink. Users can expect average upload speeds of 220 - 320 Kbps, and download speeds of 500 - 800 Kbps. In areas where HSDPA is not available the PinPoint X is backward compatible to UMTS, EDGE and GPRS technology.
