Power listed on the Gant is conducted for Part 22 and conducted for Part 24. This device contains GSM, GPRS Class 10 functions in the 900MHz and 1800MHz Band, which are not operational in U.S. Territories. This device is to be used only for mobile and fixed applications. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. Users and installers must be provided with antenna installation instructions and transmitter operating conditions for satisfying RF exposure compliance. Antennas used for this OEM module must not exceed 3.3dBi gain for PCS 1900 MHz and 6dBd(8.14dBi) GSM 850 MHz for mobile and fixed operating configurations. This device is approved as a module to be installed in other devices. Installed in other portable devices, the exposure conditions required a separate equipment authorization.
